

import React, ReactDOM

import MUI component that you want to use

sample code from

<http://www.material-ui.com/#/components/app-bar>

sample code from

<http://www.material-ui.com/#/components/card>

Composing an App by yourself

Rendering App into 'app' DOM

```
import React from 'react';
import ReactDOM from 'react-dom';
import {
  AppBar,
  Paper,
  Card, CardActions, CardHeader, CardMedia, CardTitle, CardText,
  FlatButton
} from 'material-ui';

import {MuiThemeProvider, getMuiTheme} from 'material-ui/styles';

//http://www.material-ui.com/#/components/app-bar
const AppBarExampleIcon = () => ( ...
);
//http://www.material-ui.com/#/components/paper
const CardExampleWithAvatar = () => (
  <Card>...
  </Card>
);
//You make yourself an App:
const App = () => (
  <MuiThemeProvider muiTheme={getMuiTheme()}>
    <div>
      <AppBarExampleIcon />
      <br/>
      <Paper style={{width: 600, margin: '0 auto', backgroundColor: "#ddd"}} zDepth={0}>
        <CardExampleWithAvatar />
        <br/>
        <CardExampleWithAvatar />
        <br/>
        <CardExampleWithAvatar />
      </Paper>
    </div>
  </MuiThemeProvider>
);

ReactDOM.render(<App />, document.getElementById('app'));
```
